

CHEMISTRY SET

EXPERIMENTS FROM THE LAB

Rare Recordings! NYC-area Synth-pop Band [1981-1987]

Sultry Vocals • Sparkly Keyboards • Danceable Rhythms

Remastered by Grammy-Winning LA engineer, Michael Graves

Deluxe CD + 12 page booklet!

CHEMISTRY SET

Created in 1981 by Terry Kennedy (vocals & keyboards)
& Steve Mecca (bass, synth FX, drum machines).

Heard on NYC-metro radio stations in the 1980s.

All-synth band fronted by Terry's dynamic vocals,

Propelled by Steve's rhythmic grooves, and

Energized by synthesist Mike Reaves.

Performed live at many clubs & showcases in

NYC-NJ (Stone Pony, 340 Broadway, Dirt Club, Dr. B's,
and Village Gate to name a few).

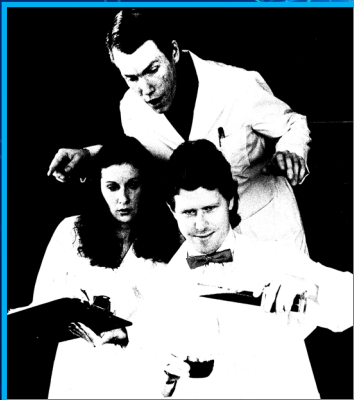

24-track recording of original song, *King's Gambit*,
recorded in 1983, was a featured track on WDHA's
NJ Rock IV (1985 vinyl album). 16-mm film/video aired
on MTV & other channels.

Steve & Terry (as 2/3 of Malaysian Pale), recorded
Nature's Fantasies (New Age/World Music) in 1985-'86
on Fortuna Records/Celestial Harmonies/Kukuck Schallplatten.

Terry & Steve's powerful tunes,
Love Reaction & *Gimme Sum Slack*
+ *Chemistry*, the trio's 1982 theme
song, are a few of the many highlights of

EXPERIMENTS FROM THE LAB
